## Potentially Hazardous Biological Agents Risk Assessment Form (6A)

Required for research involving microorganisms, rDNA, fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids.

SRC/IACUC/IBC approval required before experimentation.

Student's Name(s)

Title of Project					
To be completed by the QUALIFIED SCIENTIST/DESIGNATED SUPERVISOR in collaboration with the student researcher(s). All questions are applicable and must be answered; additional page(s) may be attached.					
	Identify potentially hazardous biological agents to be used in biosafety level risk group of each microorganism.		d in this experiment. Include	this experiment. Include the source, quantity and the	
2.	Describe the site of experim	nentation including the level o	biological containment.		
3.	Describe the procedures that	Describe the procedures that will be used to minimize risk (personal protective equipment, hood type, etc.).			
4.	What final biosafety level do	you recommend for this proj	ect given the risk assessmer	nt you conducted?	
5.	Describe the method of disp	posal of all cultured materials	and other potentially hazard	lous biological agents.	
	SECTION 2: TRAINING  . What training will the student receive for this project?				
2.	Experience/training of Designated Supervisor as it relates to the student's area of research (if applicable).				
O TI p la	SECTION 3: For ALL CELL LINES, MICROORGANISMS AND TISSUES – To be completed by the QUALIFIED SCIENTIST or DESIGNATED SUPERVISOR - Check the appropriate box(es) below:    Experimentation on the microorganisms/cell lines/tissues to be used in this study will NOT be conducted at a Regulated Research Institution, but will be conducted at a (check one)BSL-1 orBSL-2 laboratory. [This study has been reviewed by the local SRC and the procedures have been approved prior to experimentation.]    Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution and was approved by the appropriate institutional board prior to experimentation; institutional approval forms are attached.    Origin of cell lines: Date of IACUC/IBC approval    Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution, which does not require pre-approval for this type of study. The SRC has seen and approved the research plan and supporting documentation and acknowledges the accuracy of the responses above.    CERTIFICATION - To be SIGNED by the QUALIFIED SCIENTIST or DESIGNATED SUPERVISOR				
SECTION 4: CERTIFICATION – To be completed by the LOCAL or AFFILIATED FAIR SRC					
The SRC has seen this project's research plan and supporting documentation and acknowledges the accuracy of the information provided.
